

IF WE GIVE OUR KIDS THE PLANET

Written and Illustrated by Ms. Simpson's Grade 2 Class

If we give our kids the planet...

**they'll want to learn about
the ocean.**

Once they've learned about the ocean, they'll want to know more about amphibians.

**After they've studied amphibians,
they'll want to learn about the animals
of the world.**

When they've learned about the animals of the world, they'll know how important natural habitats are, so they'll want to plant a garden at the cenotaph in Powassan.

While they're at the park, they'll notice that there is litter to be picked up, so they'll join the PITCH IN crew.

**Then they'll notice that some of the
litter can be recycled,
so they'll recycle the paper,**

and the bottles and cans too.

They'll also remind each other to bring litterless lunches to school.

That will make them think of how they save paper by using their slates, gel boards, whiteboards and magnetic letters.

Next they'll get out the reusable cloth bags they use for their nightly Home Reading Program.

And while they're chatting about some of the books they've read, someone will mention a good book they read about the ocean and

we'll know our planet is in good hands!

Ms. Simpson's Grade 2 class would like to dedicate this book to the Municipality of Powassan in honour of their commitment to the environment.

The class would also like to acknowledge Laura Numeroff, author of "If You Give a Mouse a Cookie", which was our inspiration for writing this style of book.
